Riley Thomas has made some mistakes in life. She took a few wrong turns, and has no idea what to do next. There's a blizzard bearing down on the island, and Riley is alone with two kids under the age of four. She's out of options, exhausted, and overwhelmed.

An omega on her own always has to be on guard, but with her two daughters counting on her to keep them safe, there's no time for a pity party. Seeing no other choice, Riley accepts an invitation to ride out the storm with one of the locals.

Little does Riley know everything is about to change.

Not Many Options is a contemporary reverse harem omegaverse with four growly protective alphas, one unexpected snowstorm, an omega who has been through a lot but isn't bitter, and two adorable girls who could melt the heart of even the most hardened alpha. This book is set in the same world as the Ruined Records duet but can be listened to as a standalone.
