A century ago, outsiders saw China as a place where nothing ever changes. Today, the country has become one of the most dynamic regions on earth. In *Oracle Bones*, Peter Hessler explores the human side of China's transformation, viewing modern-day China and its growing links to the Western world through the lives of a handful of ordinary people. In a narrative that gracefully moves between the ancient and the present, the East and the West, Hessler captures the soul of a country that is undergoing a momentous change before our eyes.
