The story of Orpheus and Eurydice is the ultimate tragic love story. It is perhaps one of the most famous Greek myths, and the greatest artists have composed masterpieces to honour these two great lovers who lost their chance at reunion. The earliest account comes from Ibycus (circa 530 BC), a Greek lyric poet.

This short story is a mixture of the various existing versions, presenting the myth of Orpheus and Eurydice in all its details, all the way to Orpheus' death at the hands of the Bacchantes.
