If youâ€™re a forward-focused thinker, you may be dreaming about leaving the workforce to enjoy an easier life in retirement or you might even be considering retiring early. But a dream without a plan is just a wish.

To put some wheels on that dream, you need to consider passive income. There are plenty of different passive income options and explanations of how to build it. If youâ€™re new to the idea, Iâ€™m about to break it down for you.

What Is Passive Income?

Passive income is money you earn in a way that requires little to no daily effort to maintain. Some passive income ideas - like renting out property or building a blog - may take some work to get up and running, but they could eventually earn you money while you sleep.

Why build passive income?

Your income is your greatest wealth-building tool - a tool that typically requires your active participation in the form of a full-time job. You know what Iâ€™m talking about! Even if you love your job, Iâ€™m willing to bet you wouldnâ€™t mind earning some extra income without the blood, sweat, tears, and time commitment of another job.
