Synopsis

author	Raymond L. Weil
readBy	David Rheinstrom
inLanguage	english

By *USA Today* best-selling author Raymond L. Weil. For six years the solar system has been safe from attack, as the Kleese and the Strell fought a war for galactic domination. Now the war is over, and the victorious Kleese once more turn their attention toward the human race. President Randle and General Mitchell know the only hope humanity has of surviving is to oppose Kleese aggression by bringing the nonaligned worlds into an alliance. However, the nonaligned worlds want proof that the humans can successfully defeat the Kleese. As the Kleese war machine begins attacking the nonaligned worlds, Colonel Wade Nelson races to bring the alliance into being. As world after world falls and the Kleese warfleet comes nearer, a decisive battle is set up. It will either bring the alliance into reality, or it will mean the end of the human race.
