Author Jerry M Thorpe's Red Planet Jumpsuit, is a sci-fi must-listen.

In the not-so-distant future, humanity's aspirations soared beyond the confines of Earth, reaching toward the red expanse of Mars. The Omega Space Program stood as a testament to this collective dream, an ambitious initiative fueled by innovation, determination, and the unyielding spirit of exploration. As Earth faced its own challenges—the Omega Space Program forged ahead with Mission 104, a mission intended to lay the groundwork for human habitation on the mysterious Red Planet. Amid the chaos on Earth, a select crew comprising Johnny, Mika, Ivon, Frank, and Simon found themselves chosen for this extraordinary venture. Little did they know that their journey would transcend the boundaries of space exploration, embroiling them in a story between two worlds.
