Simon

Being the nephew of one of the most infamous mob bosses in the world isn't easy. Our family has enemies everywhere, and no one is safe without protection. Here I am at college with a fresh start, a new last name, and secrets hidden from those around me - life is going according to plan. Then one day on campus, I see him...and I want him to strip me bare...in more ways than one.

Rush

Abernathy is more than just the university I attend. It's my destiny, my namesake. Singing and entertaining are who I am, but my father wants me to major in something more appropriate for the name I carry. I've resigned myself to being who my father wants, doing what he wants. Then Simon comes into my life...and turns everything upside down. Now I have a reason to fight for what I want.

Who knew our love story would lead to secrets revealed, murderous plots, and finding our forever buried under so many lies? Hopefully we'll live long enough to see it.

Contains mature themes.
