Escape into a fun and sexy shape-shifter romance.

Imani

Imani hates her life and her waitressing job. She's stuck in the small town of Crystal Lake with no money, education, or way to escape. And then Aiden and his friends come into town. People aren't sure if they're a gang of bikers or something else. There's this odd sense of power whenever they are around. But when Imani meets Aiden, desire instantly bridges between them. There's just one thing standing in their way. He's a werewolf - the alpha of his pack and the one who created the rule that shape-shifters can never breed with humans.

Aiden

Haunted by the past, Aiden lost his family in the Mystic Wars. He and his pack have been searching for a safe town to call home. But the attraction to Imani fogs his head. Aiden finds himself torn between loyalty to his brothers and the raw, burning hunger raging in his core. Even worse, evil brews within the shadows, threatening to consume Crystal Lake and the new woman he desires. Can he figure out a solution or lose it all?

Contains mature themes.
