Fate is the cruel mistress who crumbled my entire world. Hidden truths have surfaced, and I'm forced to question some of the people closest to me. Instead of turning into the shadow form of a demon, I'm a wolf shifter with the same dark fur as my enemies. My fated mate, a sexy silver wolf, should be standing by my side as we face a frightening new enemy, but he was kidnapped along with four other shifters. Saving them could cost my life, but it™ll bring me closer to finding out who...or rather what I am and why I'm being hunted. Everything is falling apart, but I'll do anything to protect my mate and my newfound family because sometimes, the price of love is the inevitable fall.
