Why did we let the machines assimilate our musical culture? In a world where machines create most music, Alice Parsons is fed up, but what can she do? When she loses the only job she's ever liked, she stumbles on a club that caters only to humans. She's intrigued, and decides to inquire within. She discovers a group of rebels whose values align with her own. The president of MuseFam, the largest supplier of AI generated music takes an interest in the group of rebels and wants them stopped. Someone from Alice's past reenters her life, suddenly her world is turned upside down, and she's forced to come to terms with her situation. Will Alice's past ruin her future? Will she be able to reintroduce human produced music to a society brainwashed with AI generated rubbish? Find out in this Cyberpunk saga.
