

ive: A Three-Book Collection: An Uncanny Kingdom

author: David Bussell

2026-07

Synopsis

author	David Bussell
readBy	Mark Restuccia
inLanguage	english

A ghost-turned-private investigator must rescue the souls of murder victims to atone for his mortal sins.

Jake Fletcher is an ex-exorcist. No, that wasn't a stutter. Once upon a time, he evicted ghosts for a living, at least until he got killed and became one. Now he works the streets as a phantom detective, offering his services to lost souls trapped between this world and the next. But will good deeds buy him a ticket to the Good Place, or is he destined to walk the Earth as a phantom for all eternity?

In the spirit of Jim Butcher's Dresden Files, mystery, scares, and the paranormal collide in this bizarre noir. The Spectral Detective, Three-Book Collection combines the first three books in the Spectral Detective series: *Spectral Detective*, *Corpse Revive*, and *Twice Damned*.
