When studying mysterious creatures called cryptids, the line between fact and fable sometimes blurs. Believable finds - like the Piltdown Man and the Cardiff Giant - may turn out to be clever hoaxes. And impossible fictions - like a 44-foot squid and a living "missing link", the coelacanth - may be found swimming today's oceans. <p> In this CYBILS Literary Award nominee and Junior Library Guild selection, Kelly Milner Halls, Rick Spears, and Roxyanne Young take kids and their parents on an imaginative and fun-filled romp through the history of cryptids.</p>
