Tara Fremont has the world in the palm of her hand. The college junior has just landed a coveted internship with prestigious Chamberlain Industries, virtually guaranteeing a long and prosperous career. But a minor transgression has put her future - and that of her family - in jeopardy.

Can she convince Royce Chamberlain that she can be trusted? Will she follow through on her promise to him to do as she's told, no matter what the request?

She must not fail. As her orders become more and more deviant, her inhibitions drop away. Tara discovers an untapped well of her sexuality that is finally released, never again to be suppressed.

In *The Fall*, Tara's Torment, part one, Tara's initial sin is told, including her stomach-churning decision to trust Mr. Chamberlain and save herself and her family from financial ruin.

Follow along as Tara must give a detailed description of her last sexual encounter - one with two brothers in the back of a car. Enjoy her final "interview" test, servicing the stranger down the hall. Tara must contend with (and service) Mrs. Chamberlain to prove she deserves a second chance. And Tara must convince her best friend to join her in her new role at Chamberlain Industries.
