In *The Adventures of Sherlock Holmes*, Dr. Watson chronicles some of the more interesting detective cases that he and his good friend, Mr. Sherlock Holmes, have encountered during their association. We see the cases unfold as he does, scratch our heads as he does while the evidence is collected - then marvel at the impeccable observations, remarkable insight, and doggedness which Holmes displays as he teases apart the tangled clues. Packaged as 12 distinct cases, by the end of this audiobook your own senses of observation and deductive reasoning should be improved!
