In the summer of 1817, President James Monroe toured the country in an effort to unite the ever-growing United States, torn between bitter political battles that overshadowed national conflict. To Monroe, the nation seemed ready to get back into the great family of the union. And based on reactions to his speech, he was right. A Federalist newspaper hailed Monroe's visit, and his message of togetherness, as a success. It ushered in what became known as "The Era of Good Feelings." In truth, it was barely an era at all. The appearance of political unity had already begun to crack in 1819, when the Monroe administration faced its first serious political crisis: the Missouri Controversy.
