Her obsession with bearing a child would bring the world to its knees.
Marian Wassef longed for a child of her own and she would have one, no matter the cost. Her decisions would give rise to the Beast and change the course of history.
The Beast is a powerful and evil man. Determined to hold sway over the world, he forms a temporary alliance with the Trilateral council, using them to develop a weapon so powerful nations will beg for mercy.
Yussaf Wassef is a righteous man resolved to combat the evil his wife, Marian, has released into the world. He and his long-time friend and college classmate, Marckus Rashida, work together to hatch a plan to expose and resist the Beast but they can't succeed on their own. If they hope to prevail, they will need the technical and tactical help of Elias Tobias Montague and his group of Christian Faithful.
Will this unlikely alliance find a way to resist the darkness taking over the world? Or is their holy mission doomed to fail?
