In this behind-the-scenes look at the most famous musical group in history, Hunter Davies gives the complete story of the Beatles. First published in 1968, this second revised edition from 1996 has added information including a new introduction and three updated appendices: Beatles Places, Beatles Memorabilia, and Beatles Books. As the only authorized biographer, Davies had full access to the Fab Four, as well as their help and encouragement. He spent 18 months with them when they were at the peak of their musical genius and at the pinnacle of their popularity, making a mark on history and popular culture that would never fade. Davies stayed on with the Beatles through their breakup and remained friends with the individual members afterward, enabling him to write the continuing story of their solo careers. His is *the* inside story that "does not shy away from any mean and gritty little facts" ( *The New Yorker*). This is a book no Beatles junkie - or any fan of rock music - should be without.
