**A Dark Secret. A Fierce Battle. A Shrouded Destiny.** When a medieval portrait draws historian Gwyneth Franger into a forgotten fortress, her research uncovers more than a mystery; it becomes a gateway. Catapulted into the final days before the Norman invasion, she finds herself in the arms of a man history says must die. Trapped in the eleventh century, she navigates shifting allegiances, ancient tunnels, and a fate that's already been written. But destiny is not fixed. And some secrets can echo across bloodlines. She knows the truth. She holds the key. But every word she speaks could destroy the future. Pick up *The Briton and the Dane*: Timeline and travel to a moment that refuses to be forgotten.
