Murder lurks behind the scenes....

England, 1791.

Lord Francis and Lady Otilia Fanshawe have suffered a devastating blow. With Otilia sunk deep into a depression, Francis is desperate to get his beloved wife back. So when he hears about a murder at the seaside town of Weymouth, an idea starts to form....

A young girl's body has been discovered, laid out in an open coffin, surrounded by candles. The staged scene, and the fact that the victim was a member of a theatrical troupe, suggests one of her colleagues is the killer.

Knowing Otilia's sharp intuition and penchant for solving mysteries, Francis brings her to the murder site.

Can the case spark Otilia's interest? Will the intrepid "Lady Fan" once more make an appearance? And can she solve the mystery of the Candlelit Coffin?
