When Guy Stagg decided to walk from Canterbury to Jerusalem, he spent the next 10 months following medieval pilgrim paths across 5,500 km. He began the journey after suffering several years of mental illness, hoping the ritual would heal him. Travelling alone and without support, he had to rely each night on the charity of strangers. *The Crossway* is an account of Stagg's extraordinary journey. It describes the dangers he faced on the road, captures the people he met and the landscapes he experienced, offers a unique insight into contemporary faith and - most movingly - lays bare his struggle to escape the past and walk towards recovery.
