The Family Novak is an mpreg bear shifter series featuring a family that lives on the shady side of the law but always stands for what's right when it comes to protecting what's theirs.

Family Ties
River Erikson has protected his independence like the wild cat he is, and he's determined that no alpha, not even his mate, Vasily Novak, will ever tie him down. But when Vasily's son is kidnapped, River is forced to work with the big bear and realizes that maybe being mated isn't the prison sentence he expected.

Ties That Bind
Joey Novak grew up an omega in an alpha's world. He's had to fight for his place, and he can't imagine ever finding an alpha who won't expect him to step back into an omega's place. But Tony Erikson isn't your typical alpha. Neither of them are looking for love, but maybe it's exactly what they need.

Trivial Ties
Tanner Wong was in the wrong place at the right time to help another omega in distress. When the only way to save the man is to knock at the front gates of one of the most powerful mafiosos in the city, Tanner didn't hesitate. And lucky he didn't when it turns out his mate, Ivan Novak, is right behind those doors.

They're from completely different worlds, but maybe together, they can build a place of their own.

But that's not all!
Included with the first three stories of this series is a previously shared but never published short from the Team ALPHA world, *Trick or Treat*.

Take a step back to the crew who started it all as an unfortunate set of miscreants decide to take Halloween a little too far.
Get ready for a world ruled by the Don's iron fist, true mates, and a family that stands together...no matter what. You can expect to find naughty, knotty scenes of steamy passion, along with a lot of potty-mouth language and more violence than you're used to from us. But at its heart, you'll still find all the fluffy mpreg feels and crazy antics you'd look for from Susi Hawke and Crista
