Cooper Pierce, single dad and chiseled by God. Blue eyes that could melt panties like Superman. My cutesy boutique is on the edge of bankruptcy. And Cooper just flew in with his red cape and meticulously carved six pack to save the day.

There's one teeny tiny little catch. He needs me to play wifey for three months. And move into his daddy-warbucks mansion. So I'll wear his fat 4.3 carat diamond ring and fall in love with his two adorable little daughters. But his fierce protective streak makes it hard to stay out of his bed.

Daddy wants to kill Cooper. Cooper doesn't know I'm having his baby. I can't wait for the next family reunion! This is a full-length surprise-pregnancy standalone with a HEA guaranteed to make you swoon and no cheating or cliffhangers!
