## Synopsis

---

author	Robert Carlyle Taylor
readBy	Brenda Ernst
inLanguage	english

**Robert Carlyle Taylor's award-winning debut novel** *The First Robot President* combines science fiction with political satire, making fun of Democrats and Republicans in equal measure. The novel centers around Thomas Jenkins, a lobbyist, and his robot wife whose political ambitions land her on the Green Party's 2520 Presidential ticket.

**Gold prize for humor in the 2020-2021 Reader Views Reviewer's Choice Awards**

**Silver prize in the 2020-2021 Nautilus Awards**

**Distinguished Favorite in the 2021 NYC Big Book Award**

**Finalist in the 15th Annual National Indie Excellence Awards**

"[A]n entertaining science fiction satire made fascinating because of its behind-the-scenes looks at the bruising world of modern politics." (*Foreword Clarion Reviews*)

"[A] perfect combination of science fiction and politics." (Paige Loveitt for *Reader Views*)

"Taylor's easy-to-read prose may remind many readers of mainstream authors treading in unfamiliar SF territory.... In this enjoyable story, ultralogical but humane machine niceness prevails over two-party idiocy and scheming." (*Kirkus Reviews*)
