Jimmy Diaz is born a twin, and while he doesn't know it, his nearest sibling has stayed with him forever, overseeing the drama of his life played out and acting as a narrative voice.

When young, Jimmy loses a lower limb to a starving attack dog - this is the first of many disasters and one that shapes him to become a chancer, a wilful man unafraid to stand up to a notorious Dublin gangster, but also a young man with heart and belief: a loyal son, a good friend, a courageous brother and a sweet and passionate lover.

Part love story, part coming of age, this is also the story of a life in the changing streets of Ireland, from the days of the troubles to the boom and bust years and Dublin today.
