

The Haunting of White House

author: Amy Tivel

2026-06

Synopsis

author	Amy Tivel
readBy	Ethel Pitchford
inLanguage	english

Good fortune has smiled on the White family in the form of White House. A beautiful white cottage on the water side of a Scottish loch, surrounded by pastoral fields. Idyllic. Maybe. An ancestral blessing or a hellish curse? An ordinary family thrown unwittingly into their familial past. Will this be a happening of great fortune, inviting the Whites and their two boys into the cozy bosom of the highlands, or a demonic inheritance contracted by evil minions of the most unexpected kind? A peek into the family history reveals a disturbing past, one moment frozen in time at the wintry waterside home. Never again will you look upon the most insignificant of creatures in the same way. Amy Tivel most ingeniously introduces the reader to the macabre side of mother nature. Oddly reminiscent of *The Green Mile*'s Coffey, somehow.
