Everyone is dead. All that remains is an old woman and a gymnasium full of unresponsive bodies. Each day another storm approaches, threatening to destroy the building they call home. Each night a series of nightmares leaves the woman screaming for help. Alone and overwhelmed, will the final member of the human race be thought of as a caretaker or as a monster?

The Hauntings of Playing God is a story about the possibilities each life holds. It is also a lesson about the importance of believing in something greater than yourself.
