A historical detective mystery at its vampiric best!

 John Grissom, vampire bacteriologist, has found a new purpose in life, joining up with friends Henrietta Isherwood and Gerhardt Van Helsing to comprise the off-book Bow Street Odd Crimes Division. What Mulder and Skully were to the FBI, John and Henrietta are to Bow Street.

 When reports come in from the Peak District of an unexplained beast terrorizing the countryside, and a lynch mob is ready to pin the trouble on a young girl, the Odd Crimes division believes it's nothing more than an elaborate hoax. Finding hidden lairs with shrines to plague-era distorted skeletons has them rethinking everything, and wondering if they are going to leave Derbyshire alive....
