

The Kraken's Tooth

author: Anthony Ryan

2026-07

Synopsis

author	Anthony Ryan
readBy	Steven Brand
inLanguage	english

The great merchant city of Carthula - raised from the bones of a kraken on the whim of a goddess

Where noble houses call upon dark magic to triumph in their endless and deadly game for dominion....

Landless one-time king Guyime, once called Pilgrim but known to history as the Ravager, has survived the fall of the Execration - an event that set him on a path to find the legendary Seven Swords.

Guided by sorcery, Guyime journeys to Carthula in the centre of the First Sea to claim the mythical blade known as the Kraken's Tooth. Aided by three companions - the beast charmer Seeker, a powerful sorceress, and a scholarly slave - Guyime ventures into Carthula's perilous underbelly to secure a prize guarded by ancient magics, cursed spirits, and lethal traps. But can he survive an ultimate ordeal crafted from his worst nightmares?

Continuing the epic story begun in *A Pilgrimage of Swords*, *The Kraken's Tooth* is a fast-paced tale of low intrigue and grand adventure from the *New York Times* best-selling author of the *Raven's Shadow* and *Draconis Memoria* trilogies.
