Add this simple "powerhouse ingredient" to each affirmation you ever make to turn each and every affirmation into a magical statement. Press the wealth button! It's your turn! Bring your affirmations to life! One of the top three most powerful tools to activate the law of attraction are things called affirmations (the other two being gratitude and action). But not all affirmations are created equal. In fact you've probably heard some gurus say that affirmations don't work. And yet others swear by them. So what's the truth? In *The Law of Attraction Wealth Button*, author and LOA guru Linda Joseph explains what makes affirmations really work and the simple yet amazingly profound, method you can incorporate into your law of attraction regimen that will change the way you make affirmations forever and, more importantly, change your outcomes for the better. *The Law of Attraction Wealth Button* is all about wealth attraction affirmations, but the system can be used to attract anything. You can use this new approach to affirmations to attract wealth, relationships, jobs, basically anything you want. It's all about believing in what you are affirming to yourself. That does not mean making the affirmations only a small stretch from your current reality; rather, it all has to do with what you say either before or after each affirmation. That is what makes them truly powerful. This is a quick listen, but the method you are about to learn will change things for good. Can you imagine what's waiting for you once your affirmations come to life?
