The town of Mecklenburg has soured. People are missing, and evil is running amuck in this pause-resisting nightmare.

While investigating an incident 7,000 feet deep inside the Duke Mining copper mine, Tom Porter stumbles across a doorway that transports him into a parallel world of hell. He wakes up hairless, bruised, and naked in a wasteland controlled by an insidious faction of people, led by Chief Sanders, Trashman, and The Preacher.

Tom journeys through this hell while searching for a way home as insidious men fight to stop him.

Follow Walter Pauls, Tom Porter, Charlotte Kane - her dog, Bran - and others as they discover supernatural forces eating the soul of this town. Follow Detective McKinney as he attempts to solve the mystery of the dead, the murders, and "The Missing."

This is a haunting tale of spilled blood in a town that God has forsaken. Why are people missing, and why do so many bad things happen in Mecklenburg?

First came Under the Dome, then came Desperation. Now there's *The Missing* by Olin Lester, to make you think twice about visiting small towns!
