

The Mystery of You

author: Kenneth B. Klein

2026-07

Synopsis

author	Kenneth B. Klein
readBy	Kenneth Klein
inLanguage	english

H.G. Wells, the great science fiction writer, was on to something when he penned his blockbusting novel, *War of the Worlds*. There is a War of the Worlds! But it is not a kinetic space war or a terrestrial war. It's a silent war that goes undetected within ourselves. It's a desperate conflict between our outer man and our inner man. It rages every day in our members. It is a war we must win! We must gain the mastery over who we truly are! What is at stake goes far beyond what can be grasped by human understanding. It is about our true identity and eternal destiny!

We gain a glimpse of this glorious future when we look up and see the physical universe of stars and galaxies! But our present earthbound existence greatly hinders the comprehension of our eternal destiny.

Nevertheless, time travel into the eternal heavens was promised long ago in the writings of the great prophet Isaiah, who declared that one day we would plant and establish the heavens. This unimaginable travel into the stars and enormous purpose is astonishing!

The reality of this faraway destiny was actually written as a prophecy hidden in stone in the ancient pyramids of Egypt.

The book of Revelations tells of a mysterious war in the heavens which took place, causing the expulsion of the great dragon Lucifer, along with myriads of his subordinate angelic beings. The great pyramid points to the location of the war at a serpent star configuration in the Milky Way galaxy called Draco.

This war is the key for understanding the massive confusion that has come down and like a cancer plagued planet Earth for thousands of years. It is the lens providing a crystal-clear grasp of a proper worldview. Nevertheless, paramount to understanding is that the massive confusion also reigns in our mortal bodies.

This is what must be overcome! But in order to overcome, we must enter into the process of "transformation". Transformation of the inner man is a lifelong process.

Once ignition into the transformation process commences and is

pursued to its conclusion, the end result is transfiguration. Transfiguration is the reentry into what is described as an eternal body. It is an indestructible body! It is very much the opposite of our present mortal body! But not only is it indestructible, it has supernatural qualities and capabilities. Only within a supernatural eternal body can star travel and the mission of planting the galaxies be achieved. This is the promised destiny forecast by the ancient Jewish prophet Isaiah.

The road map forward, into this remarkable transcendent future, is provided and carefully laid out in *The Mystery of You*. It's time to discover that we were intended to be more than mere men!
