There is no such thing as luck. Roxy Kincaid isn't a biker chick anymore. She's made herself more than Jethro Winston's castoff, and she's never going back to her old life with the Iron Wraiths. But one summer night, a charming stranger threatens to sweep Roxy off her feet. Ignoring fate and their instant attraction, she has to get back to her real life in Green Valley. He couldn't be the one that she wants when he's exactly the thing that could ruin everything. If only she could stop thinking about him. Luck is everything. Sanders Olsson is going to fix his mistakes. He's determined to show his best friend he's a reliable business partner not the distracted flake he's been lately. But he has to listen when the universe brings him a sign in the form of a guarded beauty he can't keep his eyes off. Their instant connection is almost magical but she leaves without giving him even a last name. When fate gives Sanders a second chance in life and love, he sets out for Green Valley without a backward glance. Their summer love happened so fast but what will it take to make it last? *The One That I Want* is a full-length contemporary romance and can be listened to as a stand-alone. Book 3 in the Scorned Women's Society series, Green Valley Chronicles, Penny Reid Book Universe.
