

The Polar Winds of Mars

author: Gayne C. Young

2026-06

Synopsis

author	Gayne C. Young
readBy	Kevin Perkins
inLanguage	english

The Southern Pole of Mars is a frozen wasteland of horrific dangers, creatures from times long past, and unimaginable peril. Hired gun Jack Taylor ventures into this no man's land to entertain his employer's friend with a safari for the ages. But what begins as a pleasure hunt soon turns into a fight for survival when contract killers arrive to collect a bounty, and unless Taylor can stop them, it could mean doom for the Martian city of Asanae.
