The development of a clan is not as easy as it might seem at first glance. Enemies strive to play dirty tricks, friends strive to gain money for their own development, and "locals" strive to provide endless impossible tasks. It would be possible to somehow cope with all this, were it not for one "however": two mighty clans yearn to pass through the portals of Altameda, and quite by chance, Kvalen knows how. It remains to decide with whom to pass through the portals, to learn where they lead, and most importantly, what is to be gained by doing so. After all, neither Kvalen nor Eredani are about to turn down personal gain for no good reason.
