If you want to discover the captivating history of the Quakers, then pay attention...

Many other mainline Christians viewed the Quakers as a dangerous sect, so much so that they pressured the British Parliament to pass the Quaker Act of 1662. This act set forth in law the "prescribed form" of prayer and worship as designated by the state. It was a formula that specifically left the traditions of the Quakers out. Unable to gain acceptance in England, the Quakers would soon leave the place of their origin altogether and try their luck in a brave new world on another continent.
