2026-07

Synopsis

author	Lachlan Wells
readBy	Matthew Broadhead
inLanguage	english

They did not want to play the game, but the game came to them anyway.

Do you like to be whisked away into a new world of LitRPG wildness? Then read on...

Enter the Quell:

On her 18th birthday, Adrianna Swann was meant to embark on her first quest into the virtual organic world of the Quell, the lands outside her tiny village. She just wasn't expecting it to start with her uncle being kidnapped by cultists.

Before she knew it, Adrianna was swept up in the world of mountain trolls, goblins and monsters. With the guidance of the grizzled warrior, Hancock and a few others, Adrianna manages to build up her own party to search for the answers. The Quell is thick, shrouded with mysteries and secrets hidden in plain sight. It requires sacrifice and demands suffering.

Is Adrianna truly ready for the powers that be? Or will she be consumed by the Quell like all of those before her?

If you want to experience the realities of The Quell, scroll up and "Buy Now"!
