"He had left the killing behind him, and now just wanted to waste away his days enjoying the sun."

Retired Lieutenant Willie Abrams is enjoying the Cuban sun in 1921. Just him and his friend retired sergeant Banesfeld run their bar in peace, while selling a little rum to mainland prohibition USA.

There's also a young girl whom Abrams has taken under his wing from the war who helps them out. Then one day, when an old girlfriend comes around asking for his help, she unexpectedly gets kidnapped. Abrams is thus sent on an adventure toward a tomb in ways he did not expect, while dealing with prohibition gang politics. Thus *The Quest for the Sun God's Tomb* begins.
