## Synopsis

---

author	Geoff Sturtevant
readBy	Jonathan Sleep
inLanguage	english

Short-order cook and ethical relativist Claude is fascinated by the secret art of Chinese cuisine. But as he delves deeper into the mysterious culture of the surrealized "Chinesians", his revelations threaten to uproot his entire code of values. What is the weight of sacredness on the relative scale of ethics? Are our morals God-given, or merely a matter of taste?

*The Relativist* is a bizarre comedy with a modern moral message.

Note: *The Relativist* is the second story in *Occupational Hazards: The Blue-Collar Omnibus*, also available on Audible.
