Would you go back?

When a man of science and a man of faith develop the ability to go back in time, there is only one place for them to go to demonstrate their new technology.

After they make a wager about whether or not the resurrection of Jesus really happened, the two set out to prove it, one way or the other.

Along the way, they face obstacles and challenges from those who want to use their technology for personal gain. But what will they do when they learn about all the damage and lives destroyed by what they have created?
