From the author of the imaginative and awe-inspiring (*New York Journal of Books*) *The Electric State* now a Netflix film comes the haunting sequel to his remarkable *Tales from the Loop*.
Welcome back to the Loop.
In 1954, the Swedish government ordered the construction of the world's largest particle accelerator in the pastoral countryside of Malmö. The local population called this marvel of technology The Loop and celebrated its completion. But Malmö and the world would never be the same.
Infused with strange machines and unfathomable creatures, *Things from the Flood* is a transcendent look at technology that will stay with you long after you turn the final page.
