She may be the only fae standing between her realm and the evil lurking below. Will Titania be given the power she needs?

Titania defeats a group of creatures threatening to colonize Middle Earth. In ending them, she broke not one but two edicts of the High Council. But justice may fall on the only person holding the key to her ability to defend the fae.

The evil spirits manifesting the terrorists lurk below, lying in wait to strike again. With the loss of a much-needed ally, she lacks freedom to learn what the realm may be facing. Worse yet, many, even some most trusted compatriots, distance themselves from the reckless queen she's painted to be.

Her power shackled and left alone, Titania loses faith in her once clear path.

Can she find her footing in time to save them all from eternal darkness?

To Be a Fae Guardian is the second book in the Realm Chronicles series, continuing a magical journey into the realm of Middle Earth. If you like dauntless heroines, you'll love Tricia Copeland's gripping fantasy.

Get *To Be a Fae Guardian* to spiral into a new world.
