Expand the tribe. Fight mercenaries. Free slaves.

With a new alliance established with the sun-elves, Jack turns his attention to improving his tribe's perimeter defences and commanding the new ship they have acquired.

But after a run-in with a beautiful stowaway, Jack ends up crossing paths with a vicious gang of mercenaries in search of the very woman he is protecting.

And with the help of new companions, the Arakin Tribe begins freeing slaves, but not without coming face-to-face with their most psychopathic foe yet.
