Seduction. Betrayals. Lies. Just another day in the fae court... The second book in the sexy new fae romance series, perfect for fans of the Fae Chronicles by Amelia Hutchins.

The longer I stay in the Fae Realm, the more confusing my situation becomes. I finished the Devotion Trials and actually won but didn't get my reward. Now I will be forced into yet another royal game - this one is labelled 'The Faewild Hunt'. It is a genius creation designed by the king himself. I've made the stupid mistake of putting my trust into people who have betrayed me, more than once, and it is making me uneasy. With every obstacle that is thrown my way, I'm losing myself a little more. One thing is for sure. Rowan has made up his mind about what he wants. I'm just not sure if I want the same thing.
