

Unicorn Shifter Academy

author: J.R. Thorn

2026-07

Synopsis

author	J.R. Thorn
readBy	Vanessa Moyen
inLanguage	english

There are three rules at Unicorn Shifter Academy.
1. Keep unicorns a secret.
2. Never compare horn sizes.
3. No girls allowed.
Whoopsie. I broke all three.
Youâ€™d think that unicorn shifters would be chicks, right? Yeah, me, too, but turns out unicorns are always males.
Until me, that is.
Iâ€™ve never shown a drop of magic in my life, even though Iâ€™m from a family of powerful witches. Well, my parents had the grand idea of performing an awakening ceremony courtesy of Fortune Academyâ€™s best and brightest! and I think it worked a bit too well. Imagine their surprise when I sprouted a horn. *A freaking horn!*
Not. Cool.
Turns out there was some serious rainbow hanky-panky in my family history, and now the unicorn shifters are pissed off Iâ€™m in on their secret community.
Seriously, spilling the magic beans is the least of my worries.
Being a unicorn means bonding with seven other shifters for lifeâ€”a life I never asked for. And since Iâ€™m the first girl in a male-only tradition, I expect this could cause some serious problems, especially because these guys hate me right off the bat.

The feeling is totally mutual! even if they are as hot as sin.
Thing is, we better get our act together because this Academy isnâ€™t just for show. Unicorns are the only creatures who stand between good and evil on a cosmic scale. A monster lurks in a terrifying pit in the center of the Enchanted Forest.
And it looks like somebody let it out.
The clock starts now to trap the beast before it eats my home realm as a snack. Iâ€™ve got my big girl panties on! even if they are rainbow-colored.

Unicorn Shifter Academy is a paranormal shifter romance novel with mature scenes and all the rainbow glitter unicorn shifter, uh! horns! a girl could possibly want! no choosing required. Since this is a series, book one ends in a cliff-hanger.
