These three gorgeous mages have met their match. *Me*.

As one of the best fighters in Boston's underground MMA ring, I love taking down cocky men who think a woman can't possibly beat them. That is, until the day I throw a punch and hit my opponent with *magic* instead of my fist. Turns out, I'm Magic Blessed, a human with powers gifted by the gods.

As part of my magical training, I have to compete in a deadly magical game to prove my worth. And to survive, I'll need to team up with three sexy, infuriating men.

Lachlan, the motorcycle riding Irishman who'll go toe-to-toe with me in a way that shouldn't be a turn-on...but totally is.

Trace, the bad boy rock star with tattoos I want to lick and an oversized ego I want to deflate.

And Merrick, the ex-boyfriend I ran from when things got too real - and who hates me for breaking his heart.

We may be on the same team, but the real question is: Will we manage to win this game before the insane chemistry between us kills us all first?

This omnibus contains the complete Magic Blessed Academy series, a paranormal reverse harem enemies-to-lovers romance. It contains cursing and plenty of panty-melting steam.
