Audiobook three in the Uschi series.

Since his ignominious departure from Tempest Lingerie, Roger has been living a life of celibate solitude for months. Until one day a classified ad, clearly written by Uschi, tells him that his old nemesis is setting up her long-dreamed-of business venture, and soon Roger inveigles his way into the unlikeliest of roles working for her.

Inevitably, this being Uschi, and this being a Lesley Finch story, this business venture involves boobs - more boobs than ever.
