<p>A lone soldier is gifted the power to save humanity in this Military Sci-Fi Complete Series Bundle from bestseller L.L. Richman.</p> <p>When a training exercise at a classified research facility goes awry, Joe Kovacs loses much more than his eyesight. He loses his career. He canâ€™t lead one of the militaryâ€™s top spec-ops teams if he canâ€™t see.</p> <p><i>A decision with consequences.</i> </p> <p>Joeâ€™s only shot at getting his life back lies in the hands of an anonymous â€˜shadowâ€™ scientist. The offer is risky, an experimental implant that may or may not work. He jumps at the chance, but quickly learns the device does more than restore his sight. Much more.</p> <p><i>Thereâ€™s no going back.</i></p> <p>Joe begins seeing strange flashes. Ghosts of images, overlaid atop his own vision. Actions he could have taken but didnâ€™t. Worse, the visions are increasing in scope and frequency. Believing heâ€™s going mad, he confronts the scientist, only to discover the implantâ€™s shocking origin. </p> <p>Nothing is as it seems, and all the possible futures Joe can now see point to a system-wide conspiracy that will shift the balance of power for hundreds of years. Joeâ€™s visions hold the key to stopping itâ€¦ if he can learn to control them in time.</p> <p>Don't miss this exciting Military Science Fiction Series now in a full series omnibus. It's perfect for fans of <i>Halo</i>, Rick Partlow (<i>Drop Trooper</i>), Jeffery H. Haskell (<i>Grimm's War</i>), and Joshua Dalzelle (<i>Black Fleet Saga</i>).</p>
