What if nothing could stop you? How big would you dream?

My big, beautiful vision is a world where every voice actor has an authentic (and therefore awesome!) brand. But I realize that's a big ask...and that it's not humanly possible to work with every voice actor in the world.

That's why I wrote this audiobook: *Voiceover Achiever: Brand Your VO Career, Change Your Life.*

Because fine...if I can't work with every voice actor in the world, I want them to have access to my knowledge and my secrets! I want them to know how to create a brand they fall-to-the-floor adore. One that is magnetic to their ideal clients.

So if you want to make 2018 the beginning of your best year yet - I wrote this audiobook for you.

If you know you need to nail down your personal brand but aren't sure how - I wrote this audiobook for you.

If you want to show up in the world - powerfully - I wrote this audiobook for you.

If you want to create a brand that can change your life - I wrote this audiobook for you.

In *Voiceover Achiever*, I've shared the steps (and secrets!) my team and I use to build career-catapulting brands for our clients. And now they're yours.

Ready to make your brand unstoppable?

This audiobook makes it easy and fun.
