author:

2026-08

Synopsis

The sun rises in Primm. Nick, Vincent, and Vera prepare for the Stomping Grounds. The Boar holds her cards close to the chest. Pegs demands to hear the truth, despite the risks.

18 years after the original STORY OF SURVIVAL, a new generation is forced to grow up in the post-apocalypse. The Infected have evolved into new deadly varieties, and humanity's efforts to reclaim our lost civilization have put us in conflict with our greatest enemy: Ourselves. Now the countdown begins as the children of the survivors work to make sense of this deadly new world before it consumes them and everything they know and love.
