The last great mafia story *When The Bullet Hits The Bone* is an enthralling full-access account of the life of a notorious mafioso intimately involved in the Lufthansa Heist, rampant government corruption, and the death of a pope.

Anthony Salvatore Luciano Raimondi has been a gangster for much of his life, beginning when he was just 13-years-old. He became a made man on Good Friday in 1979, and again in 1993. He served as a top enforcer to the Colombo family for more than three decades. Buckle up for a life that most people only see in movies.
